EXPERIENCE

FRONTEND DEVELOPER • JUNE 2023—PRESENT

Freelance • CA, San Jose

Working on various projects, including:

- Developing user interfaces and components for a web-based CRM system (Peredelano Projects, community-based development). Stack: React, TypeScript, Vite, Tailwind.
- Implementing a card game for a Telegram bot Web App (private customer, solo development). Stack: React, Redux, SCSS.
- Creating a functional web application as a landing page for a mobile app, implemented as a fully static exported Next.js app with dynamic routing, structure, and language versions (private customer, only frontend developer on the team). Stack: Next.js (SSG), TypeScript, Jest, SCSS.

FRONTEND DEVELOPER • AUGUST 2022—MAY 2023

Eventinc
GmbH •
Hamburg,
Germany
Working as a
part of a
development
team.

- Implemented layout and functional changes, as well as developed new components, based on Figma mockups. This included design adjustments and the creation of a private-data filtering system for the internal messenger to reduce fraud. Additionally, refactored the filtering system to enhance its client-side capabilities, thereby decreasing server usage and the number of API calls.
- Identified and resolved a wide array of visual bugs, actively participated in code reviews, and contributed to the inner-development-QA process.

- Created unit tests for components using Jest and React Testing Library. Developed tests for Cypress E2E testing.

- Executed the development of A/B tests to facilitate data-driven decisions regarding new features.
- Engaged in refactoring legacy code.

Stack: Next.js, TypeScript, SCSS, LESS, Jest, Cypress.

FRONTEND DEVELOPER • MARCH 2022—JULY 2022

Freelance • Phnom Penh, Cambodia

Developed static-content SPA's with inner routing and form handling, utilizing Bootstrap styles and components, and based on Figma mockups and existing sites.

Stack: React, React Router (HashRouter), Bootstrap, Redux.
