

# Vladyslav Tyshchenko

Calgary, AB | Tyvla0009@gmail.com | +1 (587) 000-7226 | <http://www.linkedin.com/in/aaadtysh>

## Education

---

### Taras Shevchenko National University

Bachelor's degree, Data Analytics (Sep 2019 - Jun 2023)

## Skills

---

**Programming Languages:** Python, C++, SQL, HTML, CSS

**Libraries:** Flask, Pandas, Matplotlib, Seaborn, Plotly, Scikit-learn, TensorFlow

**Tools:** Tableau, Excel, Word, PowerPoint, Outlook, Google Sheets, VMware Workstation

**Languages:** English (Upper Intermediate), Ukrainian (Native), Russian (Fluent)

## Experience

---

### Blockchain Analyst (Jan 2022 – Sep 2022)

Hedge fund, moscow

- Conducted in-depth research on blockchain technology, cryptocurrencies, and decentralized protocols across various blockchains.
- Compiled comprehensive reports summarizing the findings and presented them to the team.
- Explored trading technologies and analyzed a range of indicators to identify correlations between the global economy and the cryptocurrency market.
- Developed new databases and optimized the process of automatically populating a cryptocurrency price database directly from blockchain during my last role.

### Junior Data Analyst (Aug 2021 - Dec 2021)

Coral Travel, moscow

- Collaborated closely with the analytics and sales teams, providing them with up-to-date and processed data.
- Processed, formatted, and automated data to adjust service prices.
- Compiled reports to identify areas for improvement and suggested proposals based on the findings.
