Summary

I've been doing front-end development for over 6 years. During this time, I developed SPA in React, made websites with SSR with Next.js, mobile applications in React Native for iOS/Android.

My strong point is the love of order in any project. This applies not only to code, but also to processes in teams. In the last two companies I combined development and management of a team, the size of which reached 10 people.

Skills

JavaScript · TypeScript · React · Next.js · React Native · Redux.js · Webpack · D3.js · Styled Components · Restyle · SAAS · Jest · React Testing Library · CSS · HTML · Node.js · Express.js · GraphQL · MySQL · Git

Work experience – 6 years 3 months

Senior Frontend Developer, Team Lead

PROFI – marketplace of specialties

Mar 2022 - Present · 1 year 6 months

For the last six months, I have been responsible for the development and implementation of UI-kit into products. Previously, I developed the front-end of a mobile application and web version of Profi

- ✓ Speeded up the React Native application renderer by 30% after abandoning styled-components
- ✓ Rewrote part of the code from the monolith into a separate microservice on Node.js. This made it possible to get rid of legacy PHP code and transfer part of the product to the target architecture
- ✓ Wrote 3 articles on Habr, which helped increase awareness of the IT brand

Frontend Cluster Lead

SBER (PULSE) – digital environment for employees and managers

Nov 2018 - Feb 2022 · 3 years 4 months

I was a competency leader in the Analytics cluster and was responsible for the growth and development of 10 front-end developers

- ✓ Launched 4 analytical products on the HR platform
- ✓ Delivered a presentation at the SberJS meetup with a topic about the D3.js charting library
- ✓ Created a comfortable atmosphere in the front-end community of the cluster
- ✓ Participated in the hiring of interns for the Sber Seasons internship and was a mentor for 4 interns
- ✓ Received an award for his contribution to the development of a mentoring culture at the bank

Frontend Developer

KRIKDESIGN – Web Studio

Aug 2017 - Oct 2018 · 1 years 3 months

I developed front-end parts for websites using React or native JavaScript

- ✓ Made 2 websites with complex animations for the Awwwards, which won as the “site of the day”

✓ Created several interactive promotional landing pages for the IKEA website
