Leonid Kolesnikov

+7(981)000-58-13 | aaahka0264@gmail.com | linkedin.com/in/saaaka0264 | github.com/saaaka0264

SKILLS

Technologies: JavaScript, TypeScript, React, Inferno, HTML5, CSS3, SASS/SCSS, CSS-modules, styled-components, PostCSS, Redux, Redux Toolkit, Redux-thunk, Redux-saga, Jest, Mocha, Chai, Enzyme, React Testing Library, axios, MUI, Bootstrap, lodash, Gulp.js, Webpack, Git, Jenkins, Sonar, JSON, AJAX, REST, GraphQL, Node.js, Express, Mongoose, Webstorm, MacOS
Key Competencies: Algorithms and Data Structure, Computer Networks, REST API
Key Social Skills: Effective communication, Conflict resolution, Active listening, Empathy, Partnerships and Risk Managment, Respect
Languages: English - B1, Deutsch - A1, Russian - Native

EXPERIENCE

Sberbank of Russia
Software Engineer

Saint Petersburg, Russia
December 2020 – until now

- Implemented 1 user interface for editing data on banking products from scratch
- Improved application for precious metals with legacy code in record time (received a certificate of merit)
- Built 1 large user interface with coins for millions of users

Andersen Lab
Software Engineer

Saint Petersburg, Russia
March 2017 – December 2020

- Created several landing pages, 2 loan calculators for real estate exchange
- Constructed a credit broker UI for largest Russian online bank. Main platform support
- Constructed a component with registration and form builder for designing polls
- Made a simple management platform hosting

PROJECTS

Internal business platform | *JavaScript, React, Redux, Jest, CSS Modules*   November 2022 – until now

- Initiated project, described documentation and basis of application, played a key role in its formation and laid foundation for its success
- Reviewed code
- Cooperated with team, participating in agile scrum events
- Task statuses in Jira
- Designed architecture
- Created and support 1 user interface for editing data on banking products
- Achieved success in enhancing performance (JSDoc, unit tests)

Bars catalog | *JavaScript, TypeScript, React, Redux, Jest, CSS Modules*   December 2020 – until now

- Delivered code review
- Participated in Scrum events (sprints, daily, sprint planning, estimation)
- Navigated through tight timelines while tackling extensive layout modifications to meet project requirements
- Assumed core responsibility for planning end estimation of project tasks and timelines ensuring efficient project management
- Task statuses in Jira
- Improved application for precious metals with legacy code in record time (received a certificate of merit)
- Fixed more bugs
- Honed code (unit tests, typescript)

Coin catalog (Sberbank) | *JavaScript, TypeScript, React, Redux, Jest, CSS Modules*   December 2020 – until now

- Provided code review
- Facilitated in Scrum events (sprints, daily, sprint planning, estimation)

- Took an active role in business side development, involving initiation and troubleshooting of business and development process
- Task statuses in Jira
- Communicated with other teams (about design, etc.)
- Fixed bugs and support main pages
- Introduced a variety of new features to elevate user experience
- Built 1 large user interface with coins for millions of users
- Implementing new features
- Maintained various smaller projects on request
- Enhanced code (unit tests, typescript)

PropertyGuru Group | *TypeScript, React, Redux, Redux-Thunk, Mocha, Chai*   August 2019 – December 2020
- Initializing a new project
- Wrote several landing pages and 2 loan calculators
- Cooperated with team, participating in agile scrum events

Internet banking | *JavaScript, React (Inferno), Redux, Webpack, CSS Modules, PostCSS* June 2018 – August 2019
- Devised 1 credit broker interface
- Main broker platform support
- Communicated with other teams
- Managed without sprints from release to release (on average 2 weeks)

Choicely | *JavaScript, React (Inferno), Redux, Webpack, CSS Module, PostCSS*   October 2017 – June 2018
- Made 1 component with registration and 1 form builder
- Honed code
- Rewrote project to React from Inferno
- Analyzed code
- Participated in Scrum events (sprints, daily, retrospective)

Majordomo (Andersen Lab) | *JavaScript, React, Bootstrap, CSS*   March 2017 – October 2017
- Initializing a new project
- Devised a platform designed for hosting management
- Developing components and binding to API
- Facilitated in Scrum events (sprints, daily)
